1	A1	added periods after “Jr./Sr.”	style	9.1.2
1	A2	removed periods after score codes “1” and “2” and made boldface	style	9.1.2
1	A6	added “[EXAMPLE—USA]”  <i>BF’s Crosswalk Matrix lists it as Country Specific, and it is flagged such in other instruments.</i>	crosswalk matrix	9.1.2
1	A12, A13a	in typeset file, corrected spacing between score numbers and first word of each line	style	9.1.2
1	A13a,b,c	in typeset file, corrected indent alignment of scoring numbers	style	9.1.2
1	A14	changed “to” to “–” ndash, for inclusive numbers range, for code 1,2,3	style	9.1.2
1	B2	changed formatting of subheads to initial caps and italics “ <b><i>Ethnicity</i></b> ” and formatting of “ <b><i>Race</i></b> ”	style	9.1.2
2	C3	added comma after “family” to be “...staff, family, or others...”	style	9.1.2
2	D1	changed “non-verbal” to “nonverbal”  <i>this was accepted as spelling in (without the hyphen) in the HC 9.1 manual, and later when working on LTCF this was accepted as standard spelling and implemented during production of LTCF</i>	spelling  per LTCF 9.1	9.1.2
2	E1c	changed “non-verbal” to “nonverbal”  <i>per standard spelling accepted and implemented during production of LTCF</i>	spelling  per LTCF 9.1	9.1.2
2	E1e	inserted character space before and after slash in “complaints / concerns” and “attention / reassurance”  <i>spacing style before and after slashes is used throughout the rest of the form, so we want to make it consistent by</i>	style	9.1.2

		<i>changing here.</i>		
2	E1k	changed “non-verbal” to “nonverbal”  <i>per standard spelling accepted and implemented during production of LTCF</i>	spelling	9.1.2
3	E3	changed capitalization of “Not Present” to “Not present”	style	9.1.2
3	F1	changed “to” to “–” ndash in “8–30” and “4–7”	style	9.1.2
3	F1c	in typesetting file, removed line break on “mem-“ so “member” is on one line	style	9.1.2
3	F5	added space before and after slash in “license / car”	style	9.1.2
3	G1	added boldface to scoring words before mdash, e.g. “ <b>0 Independent</b> —No help, setup, or supervision”	style	9.1.2
3	G2	removed extra character space in score 5 before and after mdashes “...helpers—OR—Weight...”  <i>but all other mdashes are formatted w/o space before and after, so it’s changed here for consistency</i>	style	9.1.2
4	G3a	changed “Bedbound” to “Bed-bound”  <i>during production of LTCF we noted in email to JNM: “during ms. review -- and you approved “bed-bound” with a hyphen, as it is that way in the style sheet (and in the manual, both HC and LTCF). “Bedbound” with no hyphen does not appear in the dictionary, which indicates that it is not a word. We will change the HC form to “bed-bound” at next reprint.</i>	spelling	9.1.2
4	G4,5,7	in typesetting file, fixed alignment of heads	style	9.1.2

4	G4b	added space before and after slash in "he / she"	style	9.1.2
4	G6	changed code for "Uncertain" from "3" to "8"	Editorial error	9.1.2
4	H3	in typesetting file, fix alignment of head	style	9.1.2
4	I1	changed case of subheads to initial caps " <b>Musculoskeletal</b> " and " <b>Neurological</b> "; in typesetting file adjusted horizontal alignment of " <b>Neurological</b> "	style	9.1.2
5	I1	changed case of subheads to initial caps " <b>Cardiac or Pulmonary</b> " " <b>Psychiatric</b> " " <b>Infections</b> " " <b>Other</b> "; in typesetting file adjusted horizontal alignment of all four	style	9.1.2
5	12	in typesetting file, fixed vertical alignment of head	style	9.1.2
5	J3	changed case of seven subheads to initial caps; in typesetting file adjusted horizontal alignment of all seven	style	9.1.2
6	K	lowercased "and" in "Oral and Nutritional Status"	style	9.1.2
6	K1b	(Weight) added another response box (to be 3 boxes total)	correction	9.1.2
6	K2b	added space before and after greater than sign in "ratio > 25"	style	9.1.2
6	K3,K4	in typesetting file, fixed alignment of head	style	9.1.2
6	L4	added hyphenation to "...2nd- or 3rd-degree burns..."	style	9.1.2
6	L7	changed "hammer toes" to one word	spelling	9.1.2

		“hammertoes”		
6	M1b	(Dose) added period after “(0.X mg).”	punctuation	9.1.2
6	M1c	(Unit) changed initial capitalization of words in parenthesis to lower case	style	9.1.2
6	M1d	(ROA) changed initial capitalization of words in parenthesis to lower case	style	9.1.2
7	M1e	(Freq) changed initial capitalization of words in parenthesis to lower case	style	9.1.2

59	J2	coding; changed "less" to "more" in "...or if more than 30 days have passed..."	Editorial error based on CHA 9.1	9.1.2
59	J2	coding; changed "more" to "fewer" in "...follow-up assessment 30 or fewer days..."	Editorial error based on CHA 9.1	9.1.2
64 &	J6a	reduced head to just "Frequency	style based on PC 9.1	9.1.2

65		with which person complains or shows evidence of pain”		
64 & 65	J6a	moved remainder of header text into new “Definition” and modified to match PC was “--Including grimacing, teeth clenching, moaning, withdrawal when touched, or other nonverbal signs suggesting pain.” now is “Definition Measures how often the person experiences pain (reports or shows evidence of pain); includes grimacing, teeth clenching, moaning, withdrawal when touched, and other nonverbal signs suggesting pain.”	style based on PC 9.1	9.1.2
64 & 65	J6b	reduced head to just “Intensity of highest level of pain present”  moved remainder of header text into new “Definition” and added word “Measures” at beginning of definition	style based on PC 9.1	9.1.2
64 & 65	J6c	reduced head to just “Consistency of pain”  moved remainder of header text into new “Definition”.	style based on PC 9.1	9.1.2
64 & 65	J6d	reduced head to just “Breakthrough pain”  moved remainder of header text into new “Definition”.	style based on PC 9.1	9.1.2
64 & 65	J6e	reduced head to just “Pain control” move remainder of header text into new “Definition”.	style based on PC 9.1	9.1.2
79-86	M1c	“Unit” capitalization of abbreviations changed to match HC form (9.0)	style	9.1.2

79-86	M1d	<p>“Route of Administration” capitalization of abbreviations changed to match HC form (9.0); restored “EYE (Eye)”</p> <p><i>OBS went back and forth with interRAI on the capitalization of abbreviations while working on HC. We were told it’s ok to make changes in Manual, but not in Form. The copyeditor did her best to make the abbreviations in the manual correct and consistent, based on the approved medical reference, but then was not authorized to make the same changes in the form. But for these abbreviations, it’s very confusing to have them end up different in Manual than the Form. In the other publications, the form and manual match, so we are modifying here the HC manual to match the HC form.</i></p>	style	9.1.2
79-86	M1e	“Frequency” capitalization of abbreviations	style changed to match HC form (9.0)	9.1.2
81	Box	<p>Box, Example of How to Code Frequency and PRN</p> <p>- changed “August 14” to “August 11”; changed “August 16” to “August 13”</p>	style based on CHA 9.1, to make consistent with other examples	9.1.2
82	M1G	National Drug Code, changed “...twenty-one NDC codes...” to “...approximately 175 NDC codes...”	Editorial error	9.1.2
103	R2	Coding, changed “3” to “2” in “...if the score is “2”, complete the remainder...”	Editorial error	9.1.2
