

## interRAI Home Care (HC) 9.1 Errata: Implemented and Approved

The following changes have been reviewed and approved by the ISD or their assigns. The first table outlines changes to HC Version 9.1 that have been implemented in the current, published Standard edition of the HC (Version 9.1.2); the second table outlines changes that have been approved, but not yet implemented in Version 9.1.2. Page numbers refer to the published manual (Version 9.1.2). Both tables are organized alphabetically by item.

### IMPLEMENTED
